RE: Bridge Letter – Stewart Valuation Intelligence  
Stewart Valuation Intelligence (SVI) - 2025 Type 2 SOC 2 - Report received on March 27, 2026

To Whom It May Concern:

We have received your inquiry regarding the existence of any material changes in the Stewart Valuation Intelligence (SVI) control environment subsequent to the September 1, 2024 to August 31, 2025 assessment period referenced in the 2025 SOC 2 Type II audit of SVI received on March 27, 2026.

SVI recognizes the need to maintain an appropriate internal control environment and report upon the effectiveness, as well as material changes to its internal controls. As of the date of this letter, SVI is not aware of any material changes to the SVI control environment occurring subsequent to the September 1, 2024 to August 31, 2025 assessment period referenced in the 2025 SOC 2 Type II audit of SVI received on March 27, 2026 that would adversely affect the auditor's opinion in said report.

You should also be aware that SVI, as a normal part of its operations, continually updates its services and technology as appropriate. In addition, the controls for all SVI services were designed with certain responsibilities required of the system users. SVI controls must always be evaluated in conjunction with an assessment of the strength of these user controls.

Finally, in order to conclude upon the design and effectiveness of internal controls for SVI, you must read the 2025 SOC 2 Type II audit report of SVI received on March 27, 2026. This letter is not intended to be a substitute for the 2025 SOC 2 Type II audit report of SVI received on March 27, 2026.

Sincerely,

Genady Vishnevetsky  
Vice President, Information Security; CISO
